Getting Started Teacher First Steps – Planning your MOS Curriculum

- Hear from North Carolina teacher, Ricky Hardy about best practices for using Microsoft IT Academy (MSITA) curriculum in the classroom. Learn where to locate and how to use all of the needed resources for your first day and first semester teaching MSITA. The session will cover the steps for getting started and strategies for certification testing. We will discuss how to access and utilize Microsoft Lesson Plans, E-Learning, Projects and other resources. Teachers will leave this session with an understanding of how to pace learning in the classroom, and how to find the right balance of resources to achieve optimal student performance.
